

Timberleaf Soil Testing 2007 Schedule of Fees (Per Sample)

Standard Soil Tests	<p>Basic Soil Test: Tests for Organic Matter, Estimated Nitrogen Release, Reserve Phosphorus, Available Phosphorus, Potassium, Magnesium, Calcium, Hydrogen, Sulfate Sulfur, Soil pH, Buffer pH, Cation Exchange Capacity, Soluble Salts and Sodium, Percent Base Saturation for Potassium, Magnesium, Calcium and Sodium.</p> <p>Includes a copy of our <i>Supplemental Guide to Soil Management</i>.</p>	\$45.00
	<p>Trace Mineral Soil Test: Tests for Zinc, Manganese, Iron, Copper and Boron. (Recommended for all 1st time home growers and annually for commercial growers.)</p> <p><i>Note: This test is only performed subsequent to, or at the same time as a Basic Soil Test.</i></p>	\$27.00
	<p>Special Basic Soil & Trace Mineral Test Package: Combines the two tests described above.</p> <p><i>Cost savings by ordering both tests at the same time – \$9.00</i></p>	\$63.00
	<p>Comprehensive Test Package: Includes the Basic Soil and Trace Mineral Tests <u>plus</u> Particle Size Analysis which determines the percent of sand, silt, and clay in the soil sample.</p> <p><i>Cost savings by ordering all three tests at the same time – \$16.00</i></p>	\$85.00
Plant Tissue Analysis	Complements soil testing for a more complete look at soil fertility. Tissue analysis tests for Sulfur, Phosphorus, Potassium, Magnesium, Calcium, Sodium, Iron, Aluminum, Manganese, Boron, Copper, Zinc, and Nitrogen.	\$48.00
Soil Building Program	Provides an overview of the soil-building process as well as step-by-step instructions on how and when to prepare the soil for cover cropping. Suggests which cover crops to use and provides a detailed three-year soil improvement timetable for planting and rotating those crops.	\$18.00
Optional Soil Tests	Carbon to Nitrogen (C/N) Ratio	\$39.00
	Compost/Greenhouse Mixes (complete basic analysis)	\$49.00
	Compost/Greenhouse Mixes (complete basic & trace minerals)	\$65.00
	Nitrate Nitrogen	\$18.00
	Nitrite Nitrogen	\$25.00
	Organic Matter (by combustion)	\$16.00
	Particle Size Analysis (% sand, silt, clay)	\$29.00
Heavy Metal Testing	Arsenic	\$66.00
	Cadmium, Chromium, Lead, Nickel (each metal)	\$39.00
	(Subtract \$10.00 for each test costing \$39.00 beginning with the second metal requested per sample.)
